2015 Ashrae Handbook Hvac Applications

The 2019 ASHRAE Handbook—HVAC Applications comprises 65 chapters covering a broad range of facilities and topics, written to help engineers design and use equipment and systems described in other Handbook volumes. Main sections cover comfort, industrial, energy-related, general applications, and building operations and management. ASHRAE Technical Committees in each subject area have ...

Description 2019 ASHRAE Handbook—HVAC Applications

Thermal comfort is the condition of mind that expresses satisfaction with the thermal environment and is assessed by subjective evaluation (ANSI/ASHRAE Standard 55). The human body can be viewed as a heat engine where food is the input energy. The human body will release excess heat into the environment, so the body can continue to operate.

Guide to Insulating Chilled Water Systems First Edition, 2015 1-2 SECTION I: PERFORMANCE CRITERIA 1.0 Role of Pipe Insulation Pipe insulation is designed to do one or more of the following:

GUIDE TO INSULATING CHILLED WATER ... - Insulation Institute

A chiller is a machine that removes heat from a liquid coolant via a vapor-compression, adsorption refrigeration, or absorption refrigeration cycles. This liquid can then be circulated through a heat exchanger to cool equipment, or another process stream (such as air or process water). As a necessary by-product, refrigeration creates waste heat that must be exhausted to ambience, or for ...
