There's also a wide selection of languages available, with everything from English to Farsi.

## Boeing 787 Systems

Director, 787 Systems. The primary differentiating factor in the systems architecture of the 787 is its emphasis on electrical systems, which replace most of the pneumatic systems found on traditional commercial airplanes. One of the advantages of the no-bleed electrical systems architecture is the greater efficiency gained in terms of reduced fuel burn — the 787 systems architecture accounts for predicted fuel savings of about 3 percent.

EgyptAir's 787 business-class cabin consists of 30 seats arranged in a 1-2-1 configuration. This product represents an enormous improvement over the 2-3-2 angle-flat seats on the carrier's 777s — it's quite possibly the most significant single-generation shift I've encountered. I landed on 16K, a window seat in the very last row.
