**CCSS - Carnegie Learning**

The inequalities in a system of linear inequalities are known as constraints because the values of the expressions are “constrained” to lie within a certain region.

2. solution of a system of linear inequalities

The solution of a system of linear inequalities is the intersection of the solutions to each

Linear Inequalities  
**graphs, Equations,  
and inequalities 2**

© 2011 Carnegie Learning The solution to any inequality can be represented on a number line by a ray whose starting point is an open or closed circle. A ray begins at a starting point and goes on forever in one direction. A closed circle means that the starting point is part of the solution set of the inequality.

INEQUALITIES ©

Carnegie Learning, Inc.  
Linear equations with  
the solution  $x = 5$  are  
created by equating  
expressions of the form  
 $ax + 1 = b$  with different  
values for  $a$  and the  
same value for  $b$ .  
 $2x + 1 = 3$   
 $5x + 1 = 3$   
 $2x + 2 = 3$
