Commissioning and qualification (C&Q) are terms and processes related to the manufacturing of pharmaceutical or biotechnology products. Each term represents a scope of work that is part of a larger framework for making sure that a facility —and the equipment in it— will function as required and be approved by the regulatory agencies that have jurisdiction over that facility.

Guide to commissioning and qualification

Oregano is a delicious herb that boosts the flavor of any dish. It's also one of the best food sources of polyphenols, and it offers a variety of flavanones, flavones, and flavonols ().However, there are some differences between Mediterranean and Mexican oregano, which are actually slightly different botanically.

The Top 100 Foods High In Polyphenols - Nutrition Advance
