Social inequality occurs when resources in a given society are distributed unevenly, typically through norms of allocation, that engender specific patterns along lines of socially defined categories of persons. It is the differentiation preference of access of social goods in the society brought about by power, religion, kinship, prestige, race, ethnicity, gender, age, sexual orientation, and ...

Social exchange theory is a sociological and psychological theory that studies the social behavior in the interaction of two parties that implement a cost-benefit analysis to determine risks and benefits. The theory also involves economic relationships—the cost-benefit analysis occurs when each party has goods that the other parties value. Social exchange theory suggests that these ...

Just because the US is fixated on identity politics does not mean it leads on progressive social values. Germany, a country with a quarter of the US population and way less territory has hosted a third of the amount of refugees the US has. Not even mentioning the data on total amount of refugees hosted by the EU because it absolutely dwarfs the US.
