Epidemiologia Leon Gordis

We improve the public's health by training epidemiologists and advancing knowledge concerning the causes and prevention of disease and the promotion of health.

Epidemiology | Johns Hopkins - JHSPH

Epidemiology is the study and analysis of the distribution (who, when, and where), patterns and determinants of health and disease conditions in defined population.. It is a cornerstone of public health, and shapes policy decisions and evidence-based practice by identifying risk factors for disease and targets for preventive healthcare. Epidemiologists help with study design, collection, and ...
