Ectopic pregnancy is a complication of pregnancy in which the embryo attaches outside the uterus. Signs and symptoms classically include abdominal pain and vaginal bleeding, but fewer than 50 percent of affected women have both of these symptoms. The pain may be described as sharp, dull, or crampy. Pain may also spread to the shoulder if bleeding into the abdomen has occurred.

Ectopic pregnancy - Wikipedia

Heidi Murkoff is the author of the What to Expect series of pregnancy and parenting books. She is also the creator of WhatToExpect.com and the WhatToExpect app, which reach over 11 million expecting and new parents, and the What to Expect Foundation, a nonprofit organization dedicated to helping undeserved families expect healthy pregnancies, safe deliveries, and healthy, happy babies.

Pregnancy is a potential result of rape. It has been studied in the context of war, particularly as a tool for genocide, as well as other unrelated contexts, such as rape by a stranger, statutory rape, incest, and underage pregnancy. The current scientific consensus is that rape is at least as likely to lead to pregnancy as consensual sexual intercourse, with some studies suggesting rape may ...
