Left of Queer. David L. Eng and Jasbir K. Puar, issue editors. The contributors to this special issue of Social Text offer a detailed examination of queerness and its nearly three-decade academic institutionalization. Taking a position that is politically left of the current academic and political mainstreaming of queerness, the essays in this issue

The mathematics and physics around gauge theory have, since their first interaction in the mid 1970's, prompted tremendous developments in both mathematics and physics. Deep and fundamental tools in partial differential equations have been developed to provide rigorous foundations for the mathematical study of gauge theories.

Demography is destiny. The invasion of higher education by hordes of women, through the pox of co-education, is a central force-multiplier of Progressive insanity. Women destroy every male institution to which they are admitted on grounds of "equality," turning them into Stalinist/Maoist daycare centers.
