A service port cap protects the service port core from contamination and serves as the primary leak seal. 1. Remove service port cap with an appropriately sized wrench. 2. Connect gauge set to service port. 3. When testing is completed, replace service port cap and tighten as follows: 1/6 TURNWith torque wrench: Finger tighten and torque cap ...

### **INSTALLATION INSTRUCTIONS - Lennox**

I have a Lennox Model HS19-651V-2P which stopped working. I checked the fuses - which was the problem last summer and one (left side) is blown. It appears to be a 250 volt 60 amp fuse, but the fuse on the other side is 40 amp?? Should they both be the same? The door plate says Max Fuse or HACR Type CKT BKR - 60 AMP.
