Philosophy of mind is a branch of philosophy that studies the ontology and nature of the mind and its relationship with the body. The mind-body problem is a paradigmatic issue in philosophy of mind, although a number of other issues are addressed, such as the hard problem of consciousness and the nature of particular mental states. Aspects of the mind that are studied include mental events ...

Ghetto hacking involves accessing a useless airlock and cutting all of the wires in order until the bolts drop, making a note of the wire you just cut. Keeping this in mind, you can now open restricted doors by cutting all the wires except the bolt control and then crowbarring that fucker open. Useful if you don't have a multi-tool.
