Create a New Rubric - 4teachers.org

In the social sciences, triangulation refers to the application and combination of several research methods in the study of the same phenomenon. By combining multiple observers, theories, methods, and empirical materials, researchers hope to overcome the weakness or intrinsic biases and the problems that come from single method, single-observer, and single-theory studies.

Choose a topic and research it. Typically, your teacher or instructor provides a list of topics to choose from for an essay. Read the assignment rubric, make sure you understand it, and pick a topic that interests you and that you think you can write a strong paper about. Then, start finding primary sources on your topic so you can back up the claims you'll make with evidence.
