How to use each word. Although both a paradox and an oxymoron involve contradictions, they have an important difference. A paradox is a rhetorical device or a self-contradictory statement that can actually be true. While an oxymoron is a figure of speech that pairs two opposing words.. The key to easily spotting the difference is to focus on the meanings of the words themselves.

Paradox vs. Oxymoron. It's common to confuse a paradox with an oxymoron. Both are found in literature and everyday conversation. Here's the difference between the two: A paradox is a statement or group of sentences that contradict what we know while delivering an inherent truth. An oxymoron is a combination of two words that contradict each other.

Examples of Paradox in Life and Literature

The interesting number paradox is a humorous paradox which arises from the attempt to classify every natural number as either "interesting" or "uninteresting". The paradox states that every natural number is interesting. The "proof" is by contradiction: if there exists a non-empty set of uninteresting natural numbers, there would be a smallest uninteresting number – but the smallest ...
