Theory Into Practice An Introduction

Practice theory (or Praxeology, Theory of Social Practices) is a theory (or 'family' of theories) which seeks to understand and explain the social and cultural world by analyzing the repetitive practices in daily life. Practice theory, as outlined by Sherry Ortner, "seeks to explain the relationship(s) that obtain between human action, on the one hand, and some global entity which we call 'the ...

Introduction to Risk Management (Theory & Practice)

A theory is a rational type of abstract thinking about a phenomenon, or the results of such thinking. The process of contemplative and rational thinking is often associated with such processes as observational study or research. Theories may be scientific, belong to a non-scientific discipline, or no discipline at all. Depending on the context, a theory's assertions might, for example, include ...
