...

Cardio first. Cardio before lifting weights isn't a bad idea if your goal is to be in shape with a decent amount of muscle to turn heads with. By getting to your cardio workout first, your heart rate is elevated early in your workout, as well as you internal temperature and metabolism.

Workout Dilemma: Cardio or Weights First?

Abs and cardio go together like peanut butter and jelly, but unlike classic sandwich spreads, it does matter which goes on first. (We'll talk about your PB & J structuring preferences another...

Is It Better to Do Abs or Cardio First? | POPSUGAR Fitness

Whether you're cycling, running, or planning for a triathlon, cardio exercise should come first. By focusing on aerobic exercise, you will get the maximum performance from your muscles in the area where they need it most. Strength training should be secondary, performed after your cardio workout, or on rest days.

Cardio or strength training, which comes first ...

In Which Comes First, Cardio or Weights?, physicist and award-winning journalist Alex Hutchinson tackles dozens of commonly held beliefs and looks at just what research science has—and has not—proven to be true: Should I exercise when I'm sick? Do I get the same workout from the elliptical machine that I get from running?
